

ACADEMICS, NEBRASKA STATE COLLEGES

POLICY: 4320 Research

Page 1 of 1

BOARD POLICY

Quality teaching and research are mutually inclusive activities, and the Board strongly encourages appropriate faculty and staff research at the State Colleges. Research should be integral to and supportive of the State Colleges' emphasis on undergraduate instruction.

PROCEDURE

Each State College shall establish guidelines for conducting applied research related to their instructional and regional responsibilities. Such guidelines should address the issues raised by the use of animals or human subjects in research.
