Independent Auditors' Report

The Board of Trustees
Nebraska State College System:

We have audited the accompanying statement of net assets (deficit) relating to the Nebraska State Colleges Facilities Corporation (the Corporation), a component unit of the Nebraska State College System, as of June 30, 2010, and the related statements of revenues, expenses, and changes in net assets (deficit) and cash flows for the year then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Corporation's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets of the Nebraska State Colleges Facilities Corporation as of June 30, 2010, and the changes in its financial position and cash flows for the year then ended, in conformity with U.S. generally accepted accounting principles.

The management's discussion and analysis on pages 2 through 4 is not a required part of the basic financial statements, but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The accompanying additional information on pages 11 through 18 is presented for purposes of additional analysis and is not a required part of the basic financial statements. This additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

Management's Discussion and Analysis (Unaudited)

June 30, 2010

Introduction

The following is an overview of the financial position and changes in net assets (deficit) of the Nebraska State Colleges Facilities Corporation, a component unit of the Nebraska State College System (the System). Management has prepared the following discussion and analysis, and it is intended to be read in conjunction with the financial statements and related notes that follow this section.

Nebraska State Colleges Facilities Corporation (the Corporation) was organized by the board of trustees of the Nebraska State College System (the System) to finance buildings and related improvements. The Corporation is a component unit of the System. These facilities are not reflected in the accompanying financial statements as they have been transferred to the System and are reported in the System's financial statements. The bonds are secured by a pledge of the System's fee revenues and legislative appropriations.

The financial statements include the bonded projects for the year ended June 30, 2010 for the following:

<u>Facility</u>	<u>Financing objective</u>
Deferred Maintenance Project (Series 1999 Bonds)	Deferred Maintenance Projects – Chadron, Peru, and Wayne State Colleges
Peru State College/Wayne State College Project (Series 2002 Bonds)	Renovate Library and Academic Resource Center at Peru State College; purchase and renovate Energy Plant at Wayne State College
Deferred Maintenance Project (Series 2006 Bonds)	Deferred Maintenance Projects – Chadron, Peru, and Wayne State Colleges

Financial Highlights

Revenue sources include state appropriations and designated fee revenues. The final debt service payment was made during fiscal year 2009-10 on the Deferred Maintenance Projects of 1999 and during 2008-09 on the PSC/WSC Projects of 2002. The State of Nebraska Legislature has reaffirmed the appropriation of funds for its portion of the debt service pertaining to the Deferred Maintenance Projects of 2006, which is combined with designated System capital improvement fee revenues for debt service. During fiscal year 2009-10, there was a significant transfer to the System for Capital Projects in the amount of \$1,770,503, which is due to projects underway from the Deferred Maintenance (2006 Series) bond issue.

Using the Financial Statements

The financial statements of the Corporation include the statement of net assets (deficit); the statement of revenues, expenses, and changes in net assets (deficit); and the statement of cash flows. These statements are prepared in accordance with Governmental Accounting Standards Board (GASB) No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements – and Management's Discussion and Analysis – for Public Colleges and Universities*. The statements are presented on a combined basis to focus on the combined acquisition, construction, and related financing activities of the entity as a whole.

Management's Discussion and Analysis (Unaudited)

June 30, 2010

The statement of net assets (deficit) includes the trustee accounts of the outstanding bond issues. The statement of revenues, expenses, and changes in net assets (deficit) depicts nonoperating revenues and expenses that provide resources for the purchase, construction, and renovation of designated facilities and for debt service. The statement of cash flows shows the sources and uses of cash from issuance of bonds, investments, trustee activity, and other capital and financing activities.

The Statements

Condensed statements in an all-inclusive format are presented below for the Corporation for the years ended June 30, 2010 and 2009.

Current assets include resources held by the bond trustee and state treasurer, which are restricted by the bond covenants for construction, bond reserve funds, and related retirement of indebtedness accounts. Net assets classified as restricted expendable amounts for project construction and debt service are \$101,898 and \$1,569,249, respectively, at June 30, 2010. The increase in unrestricted net assets reflects the reduction of bonds payable through scheduled principal payments. The bond reserve account balances for the 2006 bond issue are included in the debt service allocation and meet the individual reserve required by each resolution.

The condensed statements of revenues, expenses, and changes in net assets (deficit) include investment income, revenues designated for debt service, interest expense, and other capital-related revenues and expenses.

Net deficit, end of year	\$ (18,159,173)	(17,826,935)

Long-Term Debt Activity

The Corporation issued no new bonds during the year. The decrease of \$2,265,000 was primarily related to debt service payments.

Economic Outlook and Subsequent Events That Will Affect the Future

Management believes that the Corporation will continue to realize sufficient resources to cover debt service. The Series 2006 debt service is paid by 52.24% from state appropriation and 47.76% from the dedicated, per-credit-hour fee paid by all the System's students. The biennial appropriations bill for the 2009-10 and 2010-11 fiscal years (LB314, 2009) includes the state appropriations for both years for the Series 2006 bonds and acknowledges the future commitment to the remaining appropriations for the subsequent years to the completion of the repayment. For the fiscal year ended June 30, 2010, \$2,180,843 was realized from the per-credit-hour fee at Chadron, Peru, and Wayne State Colleges. The first priority for funds from this source is the \$1,200,000 annual debt repayment for the Series 2006 bonds for fiscal year 2010-11. The Capital Improvement Fee rate for fiscal year 2010-11 remains at the same level as in fiscal year 2009-10. This follows a \$1 increase in the fee in each of the prior four fiscal years. Preliminary enrollment figures at the colleges for fall 2010 indicate stable enrollments, which should ensure that more than enough resources will be available to meet the \$1,200,000 debt service commitment for fees.

Notes to Financial Statements

June 30, 2010

(1) Summary of Significant Accounting Policies

The Nebraska State Colleges Facilities Corporation (the Corporation) is a nonprofit corporation incorporated in 1983 created by the Nebraska State College System (the System) to finance its repair or construction of buildings or the acquisition of equipment for use by the System. The Corporation is a component unit of the System and is exempt from state and federal income taxes.

These financial statements have been prepared in accordance with U.S. generally accepted accounting principles, as prescribed by the Governmental Accounting Standards Board (GASB). The GASB has issued GASB Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, as amended by GASB Statement No. 35, *Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities*. The Corporation follows the “business-type” activities requirements of GASB Statement No. 34. This statement requires the following components of the financial statements:

- Management’s discussion and analysis
- Financial statements, including statements of net assets, revenues, expenses, changes in net assets, and cash flows
- Notes to the financial statements

In reporting the financial activity of the Corporation, the Corporation applies all applicable pronouncements of the Financial Accounting Standards Board (FASB) in accounting and reporting for enterprise activities issued on or before November 30, 1989, unless these pronouncements conflict with applicable GASB guidance. No pronouncements of the FASB issued after November 30, 1989 have been adopted.

Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with an organization’s principal ongoing operations; therefore, all revenues and expenses are from nonoperating items as all activities are related to construction of capital assets or its financing thereof.

(a) Basis of Presentation

The financial statements are presented on the accrual basis and include all accounts cited in the resolutions issued by the Corporation in conjunction with the following:

- Deferred Maintenance Project (Series 1999 Bonds)
- Peru State College/Wayne State College Project (Series 2002 Bonds)
- Deferred Maintenance Project (Series 2006 Bonds)

As required by the resolutions, separate financial records are maintained for transactions relating to the bonds and to the revenues and expenses of each project. During the year ended June 30, 2010, the Series 1999 bonds were paid in full. The Series 2002 Bonds were paid in full during the year ended June 30, 2009.

Notes to Financial Statements

June 30, 2010

Assets relating to capital project costs have not been reflected in the accompanying financial statements as these assets have been transferred to the System and are reported in the System's financial statements.

(b) Cash and Cash Equivalents – Restricted

This caption includes cash and investments with an original maturity of three months or less when purchased. These funds are held by the bond trustee or deposited with the Nebraska state treasurer on a pooled basis in a state fund. Income earned by the pool is allocated to the System based upon average daily balances.

For purposes of the accompanying statement of cash flows, the Corporation considers all highly liquid debt instruments with a maturity of three months or less when purchased to be cash equivalents.

(c) State Appropriations

This source of funds represents a designated appropriation of funds from the State of Nebraska to pay debt service for the bonds.

(d) Amortization of Bond Issuance Costs

Bond issuance costs are being amortized over the life of the bonds on a method that approximates the level yield method.

(e) Amortization of Bond Premium

Bond premiums or discounts are being accreted to interest expense on a method that approximates the level yield method.

(f) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(2) Bonds Payable

Bonds payable are as follows for the year ended June 30, 2010:

	<u>Beginning balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending balance</u>	<u>Current portion</u>
Bonds payable	\$ 22,250,000	—	(2,265,000)	19,985,000	1,455,000
