

NSCS Information Security Standard 12: HIPAA Security Rules and the HITECH Act

NSCS's approach to the Health Insurance Portability and Accountability Act (HIPAA) Security & Privacy Rules and the HITECH Act is to minimize the amount of health information acquired, processed, and maintained.

All HIPAA data are identified as High Risk data in Standard 4. All processes and precautions indicated by Standard 4 for High Risk data must be followed.

Revision History

April/14/2019: Initial submission by PCSS

May/8/2019: Initial review by SOISO/CISOs

July/8/2019: Second review by SOISO/CISOs

July/26/2019: Third review by SOISO

Sept/30/2019: Fourth review by SOISO/CISOs using campus feedback
